

Advancing Arkansas Lifespan Research Conference

Charting a Path to Lifelong Health and Resilience

All are invited to this free two-day conference to advance life-course research by Arkansas researchers through sharing of inspiring avenues of investigation and facilitation of new collaborations.

Wednesday, Sept. 13
Noon to 6:30 p.m.

Thursday, Sept. 14
8 a.m. to 1 p.m.

Robinson Center, 426 W. Markham St., Little Rock

REGISTER TODAY!

Life course research is advocated by the National Institutes of Health and its National Center for Advancing Translational Sciences to strategically promote health and combat diseases as they progress across the lifespan. The conference will emphasize collaboration between UAMS, Arkansas Children's Research Institute and other institutions, underscored by a new team science/lifespan research grant opportunity.

Keynote speakers and their presentation titles:

Rosalind Wright, M.D., M.P.H.
Dean for Translational Biomedical Research and Professor of Pediatrics, Icahn School of Medicine at Mount Sinai
"Life Course Science of Health Disparities: Opportunities to Build Resilience and Mitigate Risk"

Amanda Dettmer, Ph.D.,
Research Scientist, Child Study Center, Yale School of Medicine
"Rhesus Monkeys: Comparative, Causal, and Complementary Models of Lifespan Health"

Fred Prior, Ph.D.,
Fred Prior, Ph.D., Distinguished Professor and Chair, College of Medicine Department of Biomedical Informatics, UAMS
"ARLife: Integrating Healthcare Information Across the Lifespan"

Sponsors: Arkansas Children's Research Institute (ACRI), Translational Research Institute (TRI), College of Medicine Lifespan Creativity Hub, and the University of Arkansas for Medical Sciences
